VANESSA NICOLE CONTRERAS ORELLANA

Full Stack Developer | Front-end & Back-end

983702049 | vanessa.ncore@gmail.com | Santiago, Chile

PROFILE

I am a Web Developer with a focus on Frontend, passionate about creating clean, user-centered interfaces. I primarily work with React, JavaScript, HTML, CSS, and GSAP to design interactive experiences that blend functionality and design. My formation as an Architect and Illustrator allows me to visually structure each component, paying close attention to details from both a technical and creative perspective.

I am deeply interested in understanding how the technologies I use work, not just applying them, which enables me to propose comprehensive and well-founded solutions. While I specialize in Frontend, I also have experience with Node.js, Express, and SQL on the Backend, allowing me to develop full applications.

EDUCATION

Full Stack Web Developer

Desafío Latam | 2024 – 2025

Certifications:

Full Stack Web Development (2025) | Backend Development with Node and Express (2025) | SQL (2024) | Front-End Development with React (2024) | React Development (2024) | Web Development with JavaScript (2024) | Advanced CSS (2024) | Introduction to Web Development (2024)

Bachelor's in Architecture

Universidad de Santiago de Chile | 2017 - 2023

Certifications:

Architect (2023) | Bachelor's Degree in Architecture (2022) | Certificate in Design and 3D Modeling (2020)

EXPERIENCE

Full Stack Web Developer

Freelance | 2024 – Present

Design and maintenance of websites according to client requirements, using technologies such as HTML, CSS, JavaScript, Node.js, and React, among others. Focused on best development practices and optimizing user experience.

Featured Project – Marketplace Development (3-person team): Developed a web application similar to a Marketplace using React, with deployment on Netlify (frontend), Render (backend), and a database on Railway. The design was initially created in Figma and then implemented directly in code. The platform allows users to operate as both buyers and sellers from the same account. Key features: product listing, individual stock management, real-time order tracking, and a smooth shopping experience. Emphasis on responsive design, intuitive navigation, and efficient state management.

Freelance Illustrator

Freelance | 2018 – Present

Design of custom illustrations, logos, and graphic content based on the requirements of individual clients and small brands.

Regulatory Architect

Freelance | September 2023 – September 2024

Housing regularization in the municipalities of Maipú and Pudahuel. Client interaction, technical drawing of plans, 3D views, preparation of regulatory documentation, and processing with professional signature.

SKILLS

Technical Skills:

Programming: HTML5 · CSS3 · JavaScript · React · Node.js · Express.js · PGAdmin · MySQL

Design: UI/UX · Figma · Photoshop · Illustrator · Procreate · Responsive Design

Tools: GitHub · Bootstrap · Tailwind · Trello · Jira

Soft Skills:

Strong communication skills within the team.

Eagerness for professional development and continuous growth.

Quick to learn new technologies and adapt to changes.
